PyConES 2014

CALL FOR SPONSORS

Zaragoza | November 2014

What is PyConEs2014?

PYCONES IS THE NATIONAL PYTHON CONFERENCE
WITH MORE RELEVANCE IN SPAIN.

PyConES second edition will be held, after the first edition's success last year in Madrid, under the mundial event PyCon's format. In this edition, the organization is by the hand of the Zaragoza Hackerspace, Dlabs, with the colaboration of the Python Spain association and the Python Zaragoza user group.

A hackerspace is a phisical place with people who has diverse interests can get to know each other, socialize and collaborate. Dlabs gives us a space where we we can meet, sharing knowledge and materials, creating some kind of open development laboratory. Right now, zaragoza's hackerspace has about twenty members who will coordinate and organise this year's event, along with many other volunteers.

Zaragoza is the fifth city in spain by its size. It's enclaved halfway between madrid and barcelona, with good communications by road and high speed train (ave). It counts with a good gastronomic, nightlife and hotel offer, wich makes it the ideal city for helding big congresses.

Some numbers
AT THE PREVIOUS CONFERENCE WE HAD

- 350 sold tickets
- more than 50 speakers
- almost 10.000 views of the conference's videos

AT THIS EDITION WE'LL SELL 350 TICKETS
for 3 tracks, and, if needed we'll open a fourth track.

Reach

PYCONES IS A VERY HETEROGENEOUS EVENT

From IT professionals to students they all come to the talks and activities. Having also curious people and entrepreneurs interested in developments with all of Python's potential.

Place

WILL BE HELD AT PYCONES2014 ETOPIA_
Centro de Arte y Tecnología de Milla Digital

Zaragoza's Center for Art and Technology is a new-generation equipment designed to hold and promote the most innovative, creative and entrepreneus projects within the scope of "Milla Digital".

A potent installation with a total surface area of more than 16.000m^2 wich will work at the same time as a center for contemporary culture, showcase of the most cutting-edge expressions and workshop for the makers and technologists, a space of specialized training in the new ambits emerging from the intersection of art and technology, a lab for ideas about the digital city and incubator for new enterprises in the content sector.

Zaragoza | November 2014

Why should I sponsor
SPONSORS MAKE THIS EVENT POSSIBLE

Sponsorship allows us to offer tickets at more attractive prices, allowing a wider participation and assistance. Plus allows us to record the sessions giving us even more reach.

PyConES sponsors are helping all Python community by making its development more appealing and interesting for enterprises and professionals.

Slong with the benefits that the community gets, sponsor enterprises get visibility and position. Also, PyConES is the best place to find the most qualified python developers of all the country.
